CONTENTS

In this catalogue

0 **How to choose**

By goal, by role, by sector and by the time you have.

1 **Leadership Programme and formats**

One leadership model in four lengths: start with a month of skills or the full year, and what you have paid counts towards a longer format.

2 **Assessments**

Find the gaps before anyone is trained: online tests and inventories, a simulation day, an interview and a plain-language gap report.

3 **Academy pathways and skills**

Short, applied courses with an assessed task and a certificate, and longer specialist pathways for each sector.

4 **Company services**

For a whole team or function: a review of the function, a leadership team pack, or a cohort of your own.

5 **Coaching, residencies and events**

The support that runs through the formats, and the events anyone can join.

6 **Certificates**

What each format and course awards. Every certificate carries a code anyone can check online.

7 **Prices by region**

Every list price, for every region.

8 **Talk to us**

How to get a quote or ask a question.

START FROM WHAT YOU NEED

How to choose

BY GOAL	**Find the gaps first** → Assessments **Develop a leader over a year** → Leadership Programme and formats **Build one specialist skill** → Academy pathways and skills **Review our function or team** → Company services
BY ROLE	**Owners and business heads** — Founder, CEO, country or profit-centre head **Functional heads** — Head of sales, projects, finance, ESG reporting or EHS **Managers and emerging leaders** — A manager or specialist being prepared for a bigger role Every format is open to all three levels, except the 6-month Foundation, which is for functional heads and emerging leaders.
BY SECTOR	**Renewable Energy** — Leaders of solar, wind, storage and hybrid generation businesses **Energy Management** — Leaders of energy management, energy audit, efficiency, energy buying and energy-services (ESCO) functions **Sustainability and ESG** — Leaders of sustainability reporting, GHG and carbon, and assurance functions **Environment Management** — Leaders of site environmental compliance, permits, management systems and EHS functions
BY TIME AVAILABLE	**Up to a month** — Skills, online assessments and the Readiness Review **About 3 months** — The Leadership Launch and the longer pathways **About 6 months** — The Leadership Foundation and the specialist certificate **12 months** — The full Leadership Programme and in-company cohorts

PART 1 OF 6

Leadership Programme and formats

One leadership model in four lengths: start with a month of skills or the full year, and what you have paid counts towards a longer format.

12-month Leadership Programme

All four tracks | Blended: residencies and online

The complete cycle: assessment, a gap report, a personal learning path through the leadership modules, specialist skills, three residencies, coaching, a business project, and a re-evaluation at month 12 that shows what changed.

WHO IT IS FOR

Owners, business and functional heads, and managers being prepared for a bigger role, in any of the four sectors.

FORMAT AND DURATION

12 months · Three residencies of three days, live online sessions of about two hours a week, coaching and a business project

WHAT YOU COME AWAY WITH

- A gap report and a development plan agreed with the sponsor
- Training aimed only at the gaps that matter for the role
- A business project with a measured result
- Before-and-after scores at month 12

ASSESSMENT

Full assessment at the start; repeat 360, knowledge test and scorecard at month 12

CERTIFICATE

Leadership Programme certificate

Owners and heads: **from USD 5,400** · Managers and emerging leaders: **from USD 3,000**

Next start: Cohorts start through the year; ask for the next date

6-month Leadership Foundation

All four tracks | Blended: residencies and online

The first half of the year: the full assessment and gap report, the first residency, a block of online modules, two specialist skills and three coaching sessions, ending with a knowledge re-test.

WHO IT IS FOR

Functional heads and emerging leaders who need a solid base before a larger role.

FORMAT AND DURATION

6 months · One residency, online modules and coaching

WHAT YOU COME AWAY WITH

- A gap report and development plan
- 5 leadership modules online
- Two specialist skills with certificates
- A knowledge re-test that shows progress

ASSESSMENT

Full assessment at the start; knowledge re-test at month 6

CERTIFICATE

Foundation certificate

Owners and heads: **from USD 3,180** · Managers and emerging leaders: **from USD 1,675**

Next start: Cohorts start through the year; ask for the next date

3-month Leadership Launch

All four tracks | Blended: residencies and online

Months one to three of the cycle: the full assessment, a gap report and development plan, the first residency and a coaching session. Continue to the Foundation or the full year with what you have paid credited.

WHO IT IS FOR

Any leader, or a company that wants to see the method before committing to a year.

FORMAT AND DURATION

3 months · Online assessment, a simulation day, one residency and one coaching session

WHAT YOU COME AWAY WITH

- A full assessment and gap report
- A development plan agreed with the sponsor
- Three leadership modules in the first residency
- A clear choice about what comes next

ASSESSMENT

Full assessment and gap report

CERTIFICATE

Assessment report and Launch certificate

Owners and heads: **from USD 2,040** · Managers and emerging leaders: **from USD 925**

Next start: Cohorts start through the year; ask for the next date

1-month Skill Sprint

All four tracks | Online

Three specialist skills in one month, each with an applied assignment on your own work and a certificate.

WHO IT IS FOR

Anyone who needs a specific capability quickly, from managers to business heads.

FORMAT AND DURATION

1 month · Live online sessions with assignments

WHAT YOU COME AWAY WITH

- Three skills chosen from the Academy catalogue
- An applied assignment for each
- Three skill certificates

ASSESSMENT

A short quiz and an applied assignment for each skill

CERTIFICATE

Skill certificate for each skill

Per person: **from USD 570**

Next start: Skills start every month

The leadership modules

128 taught hours in ten modules. Each track teaches them on its own cases and in its own words; the gap report decides which ones each leader takes.

Renewable Energy	Energy Management	Sustainability and ESG	Environment Management	Hours
Renewable energy markets, policy and business models Value chain and where profit sits; market structures in India, the Middle East and Africa; tariffs, net metering, tenders; reading policy risk; carbon and climate literacy, a shared unit taught by the Sustainability and ESG faculty in every track	Energy management markets, regulation and business models	Sustainability markets, regulation and business models	Environmental regulation, markets and business models	12
Strategy for a growing company Where to play and how to win; segment and product choices; distribution vs EPC vs development; a one-page 3-year plan	Strategy for a growing company	Strategy for a growing company	Strategy for a growing company	16

Finance for renewable energy leaders P&L, balance sheet and cash flow; working capital; project economics and levelised cost; bankability and sources of finance; currency risk	Finance and value for energy leaders	Finance and value for sustainability leaders	Finance and value for environment leaders	20
Commercial excellence Key account management; selling to commercial and industrial buyers; bid and tender strategy; pricing under falling costs; contract terms that decide margin	Influence with clients, suppliers and the board	Influence with investors, customers and stakeholders	Influence with regulators, communities and clients	16
Supply chain and inventory Supplier strategy and principal relationships; forecasting and stock policy; landed cost, duties and logistics; managing price drops on held stock	Energy procurement and the supply chain	Value chain and supplier engagement	Contractors, waste and the supply chain	12
Project delivery, quality and safety Project planning and cost control; subcontractor management; site safety leadership; commissioning, warranties and O&M handover	Delivering efficiency projects and verified savings	Delivering the reporting cycle and programmes	Delivering compliance and improvement projects	12
Leading people and building teams Hiring in a scarce market; delegation; performance conversations; developing successors; leading across countries and cultures	Leading people and building teams	Leading people and building teams	Leading people and building teams	16
Governance, risk and compliance Controls for a growing company; related-party and anti-bribery standards; lender and investor reporting; environmental and social requirements	Governance, risk and compliance	Governance, risk and compliance	Governance, risk and compliance	8
Technology and what comes next Storage and hybrid systems; module and inverter trends; digital monitoring; electric mobility and green hydrogen at awareness level	Energy technology and what comes next	Standards, data and what comes next	Environmental technology and what comes next	8
Leading self Using the psychometric profile; managing derailers; time and energy; receiving feedback	Leading self	Leading self	Leading self	8

PART 2 OF 6

Assessments

Find the gaps before anyone is trained: online tests and inventories, a simulation day, an interview and a plain-language gap report.

Leadership assessment and gap report

All four tracks | Blended: residencies and online

Psychometrics with a private debrief, 360 feedback, a sector knowledge test, a simulation day and a structured interview, ending in a plain-language gap report, a feedback meeting and a development plan.

WHO IT IS FOR

Companies that want evidence before deciding whom to develop and how, and leaders who want an honest baseline.

FORMAT AND DURATION

About 6 weeks · Online tests and inventories, then one simulation day (half a day for managers)

WHAT YOU COME AWAY WITH

- Twelve leadership competencies against the level the role needs
- Strengths and the three priorities
- A development plan with an action, a supporter and a measure for each priority

ASSESSMENT

Six sources of evidence, scored by trained assessors and calibrated

CERTIFICATE

Gap report; credited against a programme started within six months

Owners and heads: **from USD 1,500** · Managers and emerging leaders: **from USD 650**

Next start: Cohorts start through the year; ask for the next date

Online assessments

All four tracks | Online

Work style, values, motives, business reasoning, leadership judgement and a knowledge test for the sector, with 360 feedback from colleagues, all online, with extra time for everyone and a private debrief.

WHO IT IS FOR

A first look at a few people, or a team, before choosing a programme.

FORMAT AND DURATION

About 2 weeks · Online, in about four hours spread over two weeks

WHAT YOU COME AWAY WITH

- A psychometric profile debriefed in private
- 360 feedback from colleagues
- A sector knowledge score

ASSESSMENT

Results seen only by approved assessors and the participant

CERTIFICATE

Debrief and summary; credited if you go on to a programme

Owners and heads: **from USD 540** · Managers and emerging leaders: **from USD 250**

Next start: Start any week

Month-12 re-evaluation

All four tracks | Online

The same tools used again after a year: repeat 360, knowledge test and track-record scorecard, with an outcome report that shows the before-and-after change.

WHO IT IS FOR

Leaders assessed by AREEMSS who developed in their own way and want to prove the change. Included in the 12-month Programme.

FORMAT AND DURATION

About 2 weeks · Online, with a half-day review meeting

WHAT YOU COME AWAY WITH

- Before-and-after scores on the twelve competencies
- The change others see, from the repeat 360
- An agreed outcome and next-year plan

ASSESSMENT

Repeat 360, knowledge test and scorecard review

CERTIFICATE

Outcome report

Per person: **from USD 300**

Next start: Twelve months after the first assessment

Academy pathways and skills

Short, applied courses with an assessed task and a certificate, and longer specialist pathways for each sector.

Single skill course

All four tracks · Online

One applied skill course of eight hours from the Academy catalogue, with an assignment on your own work and a certificate.

WHO IT IS FOR

Anyone who needs one specific capability: carbon markets, storage, power purchase agreements, AI in energy and more.

FORMAT AND DURATION

8 hours · Live online, usually four sessions of two hours

WHAT YOU COME AWAY WITH

- One skill applied to a real task
- Feedback on the assignment
- A skill certificate

ASSESSMENT

A short quiz and an applied assignment

CERTIFICATE

Skill certificate with a verification code

Per person: **from USD 210**

Next start: Skills start every month

Specialist certificate

All four tracks · Online

Five skills from one group, for example carbon and climate markets or commercial and finance, taken at your own pace and recognised together.

WHO IT IS FOR

Specialists and managers building depth in one area.

FORMAT AND DURATION

40 hours · Live online, taken over several months

WHAT YOU COME AWAY WITH

- Five related skills applied to real tasks
- A specialist certificate for the group

ASSESSMENT

An applied assignment for each skill

CERTIFICATE

Specialist certificate with a verification code

Per person: **from USD 900**

Next start: Skills start every month

Specialist pathways by sector

Pathway	Sector	Hours	Price per person
Carbon pricing and border mechanisms Explain to an exporting customer how carbon pricing and border adjustment rules affect them, and position renewable supply as the answer	Sustainability and ESG	8	from USD 210

Sustainability assurance practitioner (ISSA 5000, ISAE 3000) Plan and perform a limited or reasonable assurance engagement on sustainability information: acceptance, risk assessment, evidence procedures, sampling, documentation and the form of the conclusion	Sustainability and ESG	40	from USD 1,050
GHG inventory and verification (ISO 14064-1, 14064-3) Build an organisational GHG inventory under ISO 14064-1 and the GHG Protocol, and review one the way a verifier would under ISO 14064-3	Sustainability and ESG	32	from USD 840
ESG reporting under ISSB, ESRS and BRSR Prepare disclosures under IFRS S1 and S2, the ESRS and India’s BRSR and BRSR Core, from materiality assessment to the evidence behind each figure	Sustainability and ESG	32	from USD 840
Carbon markets and MRV Judge the integrity of carbon credits and run monitoring, reporting and verification for a mitigation project or programme	Sustainability and ESG	24	from USD 630
EMS lead auditor preparation (ISO 14001 with ISO 19011) Plan, lead and report an environmental management system audit against ISO 14001 using the ISO 19011 audit method	Environment Management	40	from USD 1,050
Environmental compliance and permitting Build and maintain a legal register, manage consents and permits to operate, and prepare a site for a regulator’s inspection	Environment Management	24	from USD 630
Environmental and social impact assessment Scope, manage and review an environmental and social impact assessment to national rules and lender standards	Environment Management	32	from USD 840
Waste management, EPR and circularity Run a waste management programme on the waste hierarchy and meet extended producer responsibility obligations	Environment Management	24	from USD 630
Water and effluent management Account for water use, run effluent treatment and discharge compliance, and plan water stewardship for a site	Environment Management	24	from USD 630
Air quality and emissions monitoring Plan stack and ambient monitoring, read the results against limits, and manage an emissions reduction plan	Environment Management	24	from USD 630
EnMS implementation and lead auditor preparation (ISO 50001 with ISO 19011 and ISO 50003) Implement an energy management system to ISO 50001, and plan, lead and report an EnMS audit using the ISO 19011 method	Energy Management	40	from USD 1,050
Energy auditing (ISO 50002 and ASHRAE audit levels) Scope, conduct and report an energy audit at the right level of detail, and rank the savings opportunities by cost and confidence	Energy Management	32	from USD 840
Measurement and verification of energy savings (IPMVP) Write an M&V plan, choose the IPMVP option, build and test a baseline model, and report savings with their uncertainty	Energy Management	32	from USD 840
Energy efficiency in industrial systems Find, size and prioritise savings in motors and drives, pumps and fans, compressed air, steam and process heat	Energy Management	32	from USD 840
Building energy performance and HVAC Assess and improve the energy performance of buildings: HVAC, chillers, controls, lighting and the building management system	Energy Management	24	from USD 630
Energy procurement, tariffs and demand management Buy energy well: read tariffs, cut demand and power factor charges, manage price risk and plan on-site and off-site renewable supply	Energy Management	24	from USD 630

ESCO business and energy performance contracting Structure, price and manage an energy performance contract with shared or guaranteed savings and a sound M&V plan	Energy Management	24	from USD 630

AREEMSS certificate; prepares for, does not grant, external credentials.

All skills, by group

Eight-hour applied courses unless a pathway says otherwise. Each one can be taken on its own, in a Skill Sprint, or as part of a programme.

Carbon and climate markets

- Renewable energy certificates
- Carbon pricing and border mechanisms (soon)
- Climate and green finance (soon)

Sustainability, reporting and audit

- Responsible supply chain and traceability (soon)

Technology frontiers

- Battery energy storage systems
- Hybrid systems, microgrids and mini-grids (soon)
- Green hydrogen and derivatives (soon)
- Electric mobility and charging infrastructure (soon)
- Grid integration and flexibility (soon)

Commercial and finance

- Corporate power purchase agreements
- Project finance and financial modelling
- Energy-as-a-service business models (soon)
- Tender and auction strategy (soon)
- Contract and risk management (soon)

Digital, operations and people

- Artificial intelligence and data analytics in energy
- Digital asset and performance management (soon)
- Circular economy, recycling and repowering (soon)
- Health, safety and quality leadership (soon)
- Community, stakeholder and just-transition engagement (soon)

Trade, alliances and market access

- Export-import processes for renewable equipment (soon)
- Strategic alliances and partnerships (soon)
- Energy bundling and integrated offers (soon)

Technical and site awareness

- Safe DC isolation (awareness) (soon)
- Commissioning tests (awareness) (soon)
- Inverter fault-finding basics (soon)
- Battery handling and transport (awareness) (soon)
- IV-curve tracing and thermography (soon)
- Warehouse and stock control (soon)
- Customer site survey (soon)
- Net-metering and approval paperwork (soon)

Assurance, reporting and carbon Sustainability and ESG

- Sustainability assurance practitioner (ISSA 5000, ISAE 3000) (soon)
- GHG inventory and verification (ISO 14064-1, 14064-3) (soon)
- ESG reporting under ISSB, ESRS and BRSR (soon)
- Carbon markets and MRV (soon)

Environment management practice Environment Management

- EMS lead auditor preparation (ISO 14001 with ISO 19011) (soon)
- Environmental compliance and permitting (soon)
- Environmental and social impact assessment (soon)
- Waste management, EPR and circularity (soon)
- Water and effluent management (soon)
- Air quality and emissions monitoring (soon)

Energy management practice Energy Management

- EnMS implementation and lead auditor preparation (ISO 50001 with ISO 19011 and ISO 50003) (soon)
- Energy auditing (ISO 50002 and ASHRAE audit levels) (soon)
- Measurement and verification of energy savings (IPMVP) (soon)
- Energy efficiency in industrial systems (soon)
- Building energy performance and HVAC (soon)
- Energy procurement, tariffs and demand management (soon)
- ESCO business and energy performance contracting (soon)

Company services

For a whole team or function: a review of the function, a leadership team pack, or a cohort of your own.

Function Readiness Review

Sustainability and ESG | Environment Management | Energy Management | At your company

A company-level review of a sustainability, environment or energy management function: a document request, interviews and evidence sampling, scoring of each dimension, a readout to the sponsor and a 12-month plan.

WHO IT IS FOR

Companies facing new reporting, assurance, permit, audit or energy-efficiency demands on their sustainability, environment or energy management function.

FORMAT AND DURATION

4 weeks · Four weeks, at your company and online

WHAT YOU COME AWAY WITH

- Scores by dimension with notes
- The top gaps by role
- A 12-month plan
- A printable report for the board or sponsor

ASSESSMENT

Two reviewers score each dimension from 1 to 5 and calibrate

CERTIFICATE

Review report (not an assurance opinion or a compliance audit)

Priced on request · A fixed fee per company, confirmed in writing

Next start: Starts within three weeks of agreement

In-company cohort

All four tracks | At your company

A cohort of your own for twelve or more leaders, or for teams in several countries, with modules adapted to your markets and, if you wish, a simulation case written on your own business.

WHO IT IS FOR

Companies developing a leadership bench of twelve or more people.

FORMAT AND DURATION

3 to 12 months · Dedicated residencies and online sessions, at your premises or ours

WHAT YOU COME AWAY WITH

- A company capability map across the cohort
- A shared leadership language and plan
- A cohort summary for the sponsor at each stage

ASSESSMENT

Full assessment for every participant; optional custom simulation case

CERTIFICATE

The certificate of the format chosen

Owners and heads: **from USD 5,400** · Managers and emerging leaders: **from USD 3,000**

Per seat, from 12 seats, with team discounts; custom case USD 10,000 one-off

Next start: Dates set with you

Leadership team pack

All four tracks | Blended: residencies and online

Two business or functional heads and four emerging leaders through the 12-month Programme together, so the people who work together develop together.

WHO IT IS FOR

A company that wants to develop its top team and their successors at once.

FORMAT AND DURATION

12 months · The 12-month Programme in an open cohort

WHAT YOU COME AWAY WITH

- Six development plans that fit together
- A company capability map
- Team discount applied

ASSESSMENT

Full assessment for each of the six

CERTIFICATE

Leadership Programme certificate for each

Priced on request · Priced for six seats with the team discount on the companies page

Next start: Cohorts start through the year; ask for the next date

Coaching, residencies and events

The support that runs through the formats, and the events anyone can join.

Leadership coaching

All four tracks · Online

One-to-one coaching on the priorities in the development plan, with a coach who has read the gap report. One session in the Launch, three in the Foundation and individual coaching through the 12-month Programme.

WHO IT IS FOR

Every participant in the Launch, the Foundation and the Programme. Extra coaching on request.

FORMAT AND DURATION

Through the format · Online or in person, about an hour per session

WHAT YOU COME AWAY WITH

- Progress on each priority, reviewed with the sponsor
- Help with derailers and blind spots from the 360

ASSESSMENT

Progress recorded against the development plan

CERTIFICATE

Part of the format certificate

Priced on request · Included in the formats; extra sessions priced on request

Next start: Arranged once the plan is agreed

Residencies

All four tracks · Blended: residencies and online

Three-day residencies where a cohort works on real cases with faculty and peers from other companies and countries. One in the Launch and the Foundation, three in the 12-month Programme.

WHO IT IS FOR

Participants in the Launch, the Foundation and the Programme.

FORMAT AND DURATION

3 days each · In person, three days each

WHAT YOU COME AWAY WITH

- Modules taught on live cases
- A peer group that lasts beyond the programme

ASSESSMENT

Module assignments

CERTIFICATE

Part of the format certificate

Priced on request · Included in the formats; travel and accommodation extra

Next start: Cohorts start through the year; ask for the next date

Leading through the storage boom

All four tracks | Online

What changes for sales, projects and O&M leaders when every bid includes batteries. A 60-minute webinar with AREEMSS faculty and a panel of operators.

WHO IT IS FOR

Open to anyone interested in leadership in these sectors.

FORMAT AND DURATION

One event · Online

Free

Next start: 15 December 2026

AREEMSS Renewable Energy Leaders Conference

All four tracks | Blended: residencies and online

Two days on leadership in small and mid-sized renewable energy companies: finance for non-finance leaders, key accounts, safety culture and succession. Includes the presentation of the year's business projects.

WHO IT IS FOR

Open to anyone interested in leadership in these sectors.

FORMAT AND DURATION

One event · Venue to be confirmed, Dubai

USD 450

Next start: 24 March 2027

PART 6 OF 6

Certificates

What each format and course awards. Every certificate carries a code anyone can check online.

Certificate	Earned by	Note
Leadership Programme certificate	Completing the 12-month Programme, including the business project and the month-12 re-evaluation	Shows the before-and-after result
Foundation certificate	Completing the 6-month Leadership Foundation	Counts towards the full Programme
Assessment report and Launch certificate	Completing the 3-month Leadership Launch	Comes with the assessment report
Skill certificate	Passing the assignment of one skill course	One for each skill, also in the Skill Sprint
Specialist certificate	Five skills from one group	Recognises depth in one area
Academy pathway certificate	Passing the assessed task of a specialist pathway	Prepares for, does not grant, external credentials

Every certificate carries a code that anyone, such as an employer, can check on our verification page. AREEMSS certificates prepare for, and do not grant, external credentials; AREEMSS does not issue assurance opinions, certify management systems or sign impact assessments.
